Which of the following is this ferret compatible with? <input type="checkbox"/> Children <input type="checkbox"/> Dogs <input type="checkbox"/> Cats <input type="checkbox"/> Other Ferrets	This ferret personality: check all that apply: <input type="checkbox"/> Sweet <input type="checkbox"/> Bouncy/Playful <input type="checkbox"/> Gives Kisses <input type="checkbox"/> Nippy <input type="checkbox"/> Skittish/Scared <input type="checkbox"/> Quiet/Lap Ferret		
Ferrets going through a major change, such as the transition to a shelter or a new home, can suffer from what is called "shelter shock." All ferrets can experience this, though the older ferrets seem more susceptible. We have found that the more things we can keep "normal" to the ferret during this transition, the better off they fare. Providing them their favorite foods, treats, toys, games, bedding, etc., can make all the difference in the world to a ferret. Please use the space below to tell us a bit about this ferret's favorite toys, games, treats, etc. Use the reverse if needed.
